

James Wyness

Solo Fingerstyle Acoustic Guitar

07512 277297

jimmy1@wyness.myzen.co.uk

I began my musical career as a classical guitarist, performing from the age of fourteen. Since then I've played all over the world as an experimental electroacoustic musician, new instrument builder and guitarist working with recorded sound and electronics, collaborating, performing, installing, publishing... All this work is documented [here](#).

I'm now back to playing solo guitar, lap slide and bouzouki with a new repertoire of fingerstyle acoustic tunes in the vein of American Primitive and alternative folk styles - new originals in open tunings, ragtime, old blues, gospel and slide guitar. I'm currently writing and recording a new album, playing small clubs and ready to go, looking forward to playing the festivals in 2023. I'm equally happy playing support slots or full sets.

The links below give examples of the kind of tunes I play. I'd love to play them to your audiences.
